INTRODUCTION

The National Association of State Boards of Accountancy (NASBA) began gathering data on CPA examination candidates in 1982 and has published reports on performance and selected characteristics since 1985. This edition of the book covers candidate performance for the Uniform CPA Examination for all four testing windows in the calendar year 2013. NASBA offers these reports through the voluntary participation of candidates and their individual Boards of Accountancy, which provide data, and the cooperation of the American Institute of Certified Public Accountants (AICPA), which prepares and scores the Examination for the 55 U.S. jurisdictions.

BACKGROUND DATA

The background data is obtained directly from State Boards of Accountancy, when they submit information about eligible candidates to NASBA's Gateway System. The Gateway System is a Web Interface which provides state boards a means to enter, review, and manage candidate information. The process of entering candidate information using the Web Interface results in the eventual scheduling of an Examination by the candidate. Candidate information is transmitted through the Gateway System and stored in the National Candidate Database (NCD) where all CPA candidate information and Examination history data is maintained.

WHAT'S NEW WITH THE REPORTING

In 2016 the data will be presented in two books. The Jurisdiction Edition, designed specifically with the State Boards in mind, will provide a broad view of the CPA Exam trends from around the world. The University Edition focuses on university and accreditation reports, including international, regional, national and state. University rankings based upon examination data will also be a prominent feature in this edition.

Content Area Performance

In addition to the four primary sections (AUD, BEC, FAR, REG), the new publication will include performance metrics by cohort for each of the 23 content areas and four skills areas. The content area performance metric represents the percentage of students who received a comparable or stronger score for that area.

Cohort Tracking

All candidates who begin the examination process in the same calendar year are members of the cohort. Presenting the data in this way allows for a more accurate analysis of trends in the accounting pipeline.

Pipeline Reporting

This section of the reporting provides in-depth analysis of a candidate's path through the examination process, whether they pass all four parts or choose to drop out. In 2013 there were 27,005 candidates who passed their 4th part of the exam, 20,751 candidates dropped out of the exam, and 61,869 remained active in the examination process at the end of calendar year.

DEMOGRAPHICS

The reader should note that demographic data is not reported completely for all jurisdictions. This gap in data is often due to the fact that the reported information may not be critical to a given jurisdiction's application process and thus not collected. NASBA will continue to work with several of the jurisdictions to close many of the data collection gaps.

SECTION DESCRIPTIONS

In an effort to present the data in a clear-cut manner, section descriptions for each individual component of the report have been built into this edition. Please do not hesitate to contact us at CPB@nasba.org with additional questions.

FEEDBACK

The changes and improvements in this book are a direct result of the feedback received from the many end users of this product. Although this edition has made significant strides over previous editions, we acknowledge that there is additional room for improvement. To get there, we need your feedback, both positive and negative. Please send any questions, comments and (most importantly) suggestions to CPB@nasba.org.

NOTE ABOUT CONTRIBUTING EDITORS

Greg Gaynor, PhD, CPA, is an assistant professor of accounting at the University of Baltimore. He earned a BA in Economics at Dartmouth College and a PhD in Accounting at Florida State University. Consistent with his prior experience in the securities industry, Professor Gaynor's research interests include the capital markets and financial accounting as well as the CPA examination and licensure process. The University of Baltimore is committed to student success in the field of accounting and offers the following degrees: B.S.B.A. in Accounting, M.S. in Accounting and Business Advisory Services, M.S. in Taxation, and Graduate Certificates in Accounting Fundamentals and Forensic Accounting. Professor Gaynor and the University of Baltimore wish to thank NASBA for generously supporting research concerning the CPA exam. By supplying data and analysis regarding candidate performance, NASBA helps both schools and the accounting profession by assisting in the development of successful accounting graduates and future CPAs.

Mark M. Ulrich, CPA teaches principles of financial and managerial accounting and serves as the Director of the Center for Accounting Research and Technology for the Peter J. Tobin College of Business at St. John's University. His current research includes analyzing CPA exam pass rate data and accounting education pedagogy. Professor Ulrich has three years of public accounting experience, and most recently served as the Director of Budgets and Compliance for the Tobin College of Business. Prior to joining St. John's University, he was employed as a senior audit associate for KPMG. Professor Ulrich also serves on the state-wide Board of Directors of the New York State Society of Certified Public Accountants (NYSSCPA), and is a past president of the Queens/Brooklyn Chapter of the NYSSCPA.

The Department of Accounting and Taxation at the Peter J. Tobin College of Business, St. John's University offers undergraduate and graduate degrees in accounting, taxation, and enterprise risk management. St. John's is dedicated to student success on the CPA exam and students are encouraged to finish the exam prior to graduating from the master's program.

St. John's has benefitted greatly from the excellent work of NASBA, especially through the custom pass rate reports, which allow a university to look at pass rates in much greater detail than what is published in the candidate performance books. St. John's has also participated in data collaboration sessions with NASBA and other universities and hosted a data collaboration session as its Manhattan campus in July 2014. St. John's and NASBA, along with Notre Dame University and the AACSB, also participated in a joint presentation regarding CPA exam data and using pass rate results to support assurance of learning for accreditation purposes at the AACSB annual accreditation conference in September 2014.

Section Descriptions

This section contains in-depth descriptions of the data in this publications.

Overall

This portion of the report provides the highest level overview of examination volume and performance. In 2013, a total of 94,152 unique candidates passed 49.4% of the 245,985 section attempts with an average score of 71.8. These candidates had an average age of 29.1 years at the time of examination.

	Overall	Exam Type		Exam Section			
		FT	RE	AUD	BEC	FAR	REG
Candidates	94,152	69,572	49,705	54,242	47,662	50,231	48,269
Sections	245,985	142,212	103,773	68,228	56,504	60,788	60,465
% Pass	49.4%	54.6%	42.2%	45.9%	55.8%	48.3%	48.4%

Avg Age	29.1	28.1	30.5	29.1	29.5	29.0	29.1

Exam Type

A candidate's first attempt at a given section (FT) and, if needed, subsequent attempts in that same section (RE) are reported in the Exam Type area of the report. Some candidates sit for both FT and RE sections in a given examination year. In 2013 a total of 69,572 unique candidates passed 54.6% of the 142,212 FT sections attempts with an average score of 72.6. Typically around 60% of the sections attempted in a given year are FT.

Exam Section

The 4 distinct sections of the CPA Examination (AUD, BEC, FAR, REG) are each reported separately in this part of the report. Candidates attempted AUD more frequently than any other section (54,242 attempts) which resulted in the lowest pass-rate of the 4 sections (45.9%). BEC is often the last section attempted, which yields a lower total number of attempts and a higher average pass-rate.

Cohort Size Trend

A Cohort is defined as the group of unique candidates who began the examination process in a calendar year. The 2013 cohort size was 42,752 candidates, which represents a 933 candidate (2.2%) increase from 2012. The cohort size increase seen in 2010 and the subsequent drop in 2011 is related largely to the CPA Exam update from CBT to CBTe.

Gender

A candidate's gender is generally derived from information gathered during the application process. The gender mix has been roughly 50% male and 50% female since 2011. Gender information was available for 95.5% of candidates sitting for the exam in 2013. *Note that candidate counts for gender do not add up to the overall number because those who do not report a gender are not included in this section.

Residence

During the application process, each candidate indicates a country of residence. Testing performance and patterns for international residents varies notably from those of U.S. residents. In 2013, a total of 8,839 candidates entered an international address during the examination application process, representing 9.4% of all testers. International residents passed 39.7% of sections attempted while their domestic counterparts passed 50.4%.

Cohort Year

This portion of the report shows performance of various cohorts on examination sections attempted during the current calendar year. The Other cohort year collectively represents the 2004 through 2010 cohorts. In 2013 a total of 9,472 candidates who began in the 2011 cohort year sat for the examination and achieved a 42.4% section pass rate.

Age at Time of Examination

This section attempts to show both the size and performance of various age groups on the CPA examination. While the mean age in 2013 was 29 years, the median age was 26 years. As in previous examination years, performance on the examination declined with age (and time since graduation) with the largest drop occurring after the 22-23 year age group.

Activity & Lost Credit

The candidate activity pipeline is broken down into five general areas of earned credits: Pass 4, Active, Inactive, Drop, and Lost Credit. These categories are defined as follows:

- o Pass 4: The count of candidates in each defined cohort group who passed their 4th section in the reported year. It is possible that a candidate will appear in this group and then re-emerge as active if they passed the 4th section outside of the 18 month window.
- o Active: The count of candidates in each defined cohort group who sat for at least one section in the last 9 months of the reported year
- o Inactive: The count of candidates in each defined cohort group who last sat for a section between 9 and 18 months prior to the end of the reported year. 1,575 candidates from the 2013 cohort year are reported as inactive, meaning they sat for their first and last section during the first testing window of 2013 but failed to pass all 4 sections or attempt another section during the remaining 3 testing windows. While some of the inactive candidates may reappear as active candidates in following years, the total count is a strong leading indicator of drops in the following calendar year.
- o Drop: The count of candidates in each defined cohort group who are considered to have dropped from the examination process. While this is not an absolute definition, the general assumption is that once 18 months has passed and all earned credits have expired, most candidates will not restart the examination process. In the 2013 calendar year 7,986 candidates from the 2011 cohort year are reported as having dropped from the examination process.
- o Lost Credit: Any credits that were earned outside of a Jurisdiction’s required timeline (typically 18 months or 6 testing windows) before passing the fourth section will be lost. This metric counts the total number of these lost credits in the given testing window.

Attempted

This section looks at performance based on time since the first section that a candidate attempts. The idea behind this view is to look at how candidates perform farther into the testing process. Any sections attempted after 6 months and before 12 months of the given candidate's first attempted section will be aggregated in the <12 month category. Note that a candidate can be counted in multiple groups, and possibly across multiple years, unless they passed all four parts or dropped out within six months of their first section. In 2013 approximately 21% of the attempted sections were from students who began the examination process more than 2 years ago. These attempts had an overall pass rate of 36.9%, contrasting greatly with the under-12-month group who had a 53.5% pass rate.

Pass 4 Parts

The average candidate requires roughly 17-18 months and 6 total attempts to pass the 4th part of the examination. This portion of the report looks at performance based on length of time taken to complete the examination process. In 2013, 7,722 of the 27,005 candidates passed their 4th part of the examination between 12 and 18 months after beginning the examination process with an 80.1% overall pass rate.

Cohort Performance by Section

An expansion of the exam section performance, this part of the report looks at the cohort size, score and pass rates for AUD, BEC, FAR and REG. The 32 percentage point difference in BEC pass rate between the 2013 cohort and those prior to 2011 is the largest of the 4 sections. The associated difference for the AUD section is only 11.8 percentage points.

Content and Skill Area

The content and skills area data provides a more granular look at the 23 content areas, as well as the simulation and writing portions, of CPA examination performance. The percentages reported here represent the percentage of test takers who received a “Comparable” or “Stronger” (C/S) on their score report. For an in-depth explanation of the C/S measurement, please visit the AICPA’s webpage on Psychometrics and Scoring. The darker blue colors represent the content area and cohorts with the highest percentage of C/S while the darker red colors represent the lowest. The highest performance was 72.1% C/S in Ethics & Legal Responsibilities for the 2012 Cohort. The lowest performance was 36.3% C/S in Financial Statements for the pre-2011 cohorts.

Data Definitions

Below are brief descriptions for the data fields and terms found in this publication. With the exception of the multi-year trends, the data presented in this publication represents the statistics and performance for only those candidates and testing events during all four testing windows of 2014.

Active: A candidate who has attempted to sit for any section of the CPA examination in the last 9 months of a testing year is considered an active candidate at the end of that year.

Age: The exam candidate's age is calculated at the time she sits for a given section. If she sits 3 times in a year, her age at the time of each attempt will be included 3 times in the calculation of average (mean) age.

Age Rank: Ranking of jurisdictions based on the average age of its candidates. The youngest average age jurisdiction was arbitrarily given the ranking of 1. A higher or lower ranking is provided as a relative reference only and not intended to denote a level of performance.

Candidate: A unique (distinct) individual participating in the examination process during the reported testing window and, if applicable, within the reported category.

Cohort: The very first attempt on the CPA examination determines the Cohort year in which a candidate is counted.

Drop: A candidate who has not attempted to sit for any section of the CPA examination in the 18 months from the end of the given testing year is considered to have dropped from the examination process. A candidate who is reported as dropped can choose to begin testing again in subsequent years.

First-Time (FT): The initial attempt by a candidate on a given section of the examination (AUD, BEC, FAR, REG). A candidate can have up to 4 FT sections during his examination life-cycle.

International: International candidates are identified in 3 different ways within CPA Examination reports. They include residency, country of examination, or country of education. Each of the three methods for identifying provides a partial view of the international candidate population and is used for a specific purpose.

International Testing: A candidate who sits for the examination in one of six international testing locations is counted in the International Testing group. Sitting in one of these locations does not preclude a candidate from having a US address or education.

Gender: A candidate's gender is determined by salutation entered during the application process (Mister, Misses, etc...). This field is not captured by all jurisdictions.

Inactive: A candidate whose last attempt on the CPA examination was between 9 months and 18 months from the end of the given testing year is considered an inactive candidate.

Institution: A place of higher learning, typically a college or university, is referred to as an institution.

Jurisdiction: The 50 States plus the District of Columbia, Puerto Rico, Northern Mariana Islands, U.S. Virgin Islands and Guam.

Lost Credit (Lost Cd): Any credits that were earned outside of a Jurisdiction's required timeline (typically 18 months or 6 testing windows) before passing his four section will be lost. This metric counts the total number of these lost credits in the given testing window.

Percent Pass (% Pass): The pass rate is calculated directly by dividing the count of testing events passed by the total testing events in the reported category.

Pass 4 Parts (Pass 4): A candidate who successfully passes her final (fourth) section of the exam during the testing year is counted in this metric.

Re-Exam (RE): Any attempt on an exam section that occurs after the FT attempt on that given (AUD, BEC, FAR, or REG) section.

Residence: The candidate's address at time he or she applies for the examination determines their residence status – either domestic (U.S.A.) or International (Int'l). A small number of candidates will change status between Domestic and International during the reported year.

Score: The numerical score received for each testing event.

Section: Refers to one of the four areas of the Examination: AUD, BEC, FAR or REG. The term Section(s) is also synonymous with Testing Event(s) for this and other NASBA reports.

Additional Products

Candidate Performance Publications

Jurisdiction Edition: Designed specifically with the State Boards in mind, the Jurisdiction Edition provides a broad view of CPA exam trends from around the world.

University Edition: Focusing on university and accreditation reports, including international, regional, national and state, the University Edition also features a wide scope of university rankings.

Accreditation Reports: Schools and Boards that provide NASBA with a list of graduates are offered the most accurate analysis of performance on the CPA Exam with the NASBA Custom Report. Direct name matching of Exam candidates allows for tracking of a program's performance on the Exam, which in turn provides a valuable tool for accreditation reviews, changes to the curriculum, admissions criteria or other variables inherent to the accounting education. Educators are able to compare the performance of their students based on graduation year, gender, Bachelor's v. Master's programs, concentrations within the program, and in numerous other ways.

New Features in the Reports

Content Area Performance

In addition to the 4 primary sections (AUD, BEC, FAR, REG), the new publications will include performance metrics by cohort for each of the 23 content areas and 4 skills areas (Writing and Simulation).

Cohort Tracking

All students who begin the examination process in a given year are member of the cohort. The reports provide a comprehensive analysis of each cohort for the given examination year.

Pipeline Reporting

This section of the reporting provides in-depth analysis of a candidate's path through the examination process, whether they pass all 4 parts or choose to drop out.

Past Publications

Candidate Performance Book: This publication, which included statistical information from all (4) testing windows in a given year was designed to meet the needs of both the NASBA's stakeholders and the book's numerous end users. **Years include 2006-2015.**

School Performance Book: This product helped numerous educational institutions by including more granular views into the performance of each school. In addition to the standard ranking, performance by region and program size allowed a view into performance among peer institutions. **Years include 2006 – 2015.**
